

## Next Steps

The Image Capture Engineering organization will join the LexisNexis® Discovery Services group that already includes *Concordance* discovery software, the full service, large capacity Applied Discovery® online review application and the hosted data, in-house managed model of *Hosted FYI*™.

Image Capture Engineering teams will immediately begin integration with their counterparts within the LexisNexis Discovery Services group, including sales and customer support. Mr. Roberts will work with LexisNexis for six months to help manage the transition of Image Capture Engineering, but then will move full time into his role as owner and leader of his other business, Pro Copy.

Beginning this summer, LexisNexis plans to offer *LAW 5.0 PreDiscovery* in special bundled pricing with *Concordance*. Over the longer term, LexisNexis will expand upon current integrations between portions of *LAW 5.0* and *Concordance* software to create new choices and services based on client feedback and market demand. However, both *LAW* and *Concordance* will continue to be developed and offered as stand-alone products.

LexisNexis will honor existing Image Capture Engineering business and continue to work with clients using competing e-discovery review tools.

## About LexisNexis

LexisNexis® ([www.lexisnexis.com](http://www.lexisnexis.com)) is a leading provider of information and services solutions, including its flagship Web-based *Lexis*® and *Nexis*® research services, to a wide range of professionals in the legal, risk management, corporate, government, law enforcement, accounting and academic markets. A member of Reed Elsevier [NYSE: ENL; NYSE: RUK] ([www.reedelsevier.com](http://www.reedelsevier.com)), LexisNexis serves customers in 100 countries with 13,000 employees worldwide.
